Molly Ann Pinkston Hollar, 95, of Arlington Texas, passed away peacefully in her home at Trinity Terrace, January 17th 2024, with her family. She was born in Lubbock Texas on February 26th, 1928, to the late Louis and Mary Pinkston. She graduated from Vernon High School, and attended Texas Tech University, where she met and married James Lee Hollar, in Vernon Texas.

Soon after marriage, they moved to Borger Texas, and over the next 14 years, had 6 children. Molly was a consummate mother, focusing all of her energy on her family, providing a home full of enrichment, creativity, and unconditional love. Additionally, she influenced her family and others throughout her life, to make nutrition a priority. She also gave to her community, by developing childhood programs at the First Methodist Church in Borger Texas, teaching Red Cross swimming lessons, and later, infant and toddler swimming in Arlington, Texas, where the family moved in 1969.

After her children were grown, she spearheaded the creation of the Wildscape at Veteran's Park, which now bears her name, The Molly Hollar Wildscape. She worked, tirelessly, leading volunteers in the installation and maintenance of native plants on 5 acres. The Wildscape serves as a demonstration for the community in the use of native plants, organic gardening methods, and water conservation. She received numerous awards from local, state, and federal conservation organizations. Her passion through all of these endeavors, was

to leave the world a better place, now, and for future generations.

She is survived by her children, Nancy King (Mike), Susan Hollar (Gary Easter), Cindy Underwood (Kent), Gail Hollar, and Tim Hollar (Kathy), along with 10 grandchildren, and 9 great grandchildren, and is predeceased by her son, James Lee Hollar Jr.

“ I am sorry to hear of Molly's death. I just learned of this today. She was such a wonderful lady, loved the environment, wanted everyone to be involved with keeping the world nice, clean and filled with wild animals, flowers, everything to do with nature. She worked so hard at what she loved. The Molly Wilderness is here to remind everyone of who she was, what she did. The city of Arlington will miss her. Robert and Josephine Briggs.

“ I met Molly in 1991 when she came into Redentas to buy pentas for her butterfly babies. Since that day we talked often and found that we had a lot of the same interests and I was so privileged to be able to spend time with her. She was such a lovely sweet caring lady. She was a cherished friend. I wish we could have spent more time together. Lucy Harrell
